

7 Steps we are taking at StCB to prevent the spread of COVID-19

01 Conduct routine cleaning and disinfecting of all classrooms and common spaces

02 Wash hands and use sanitizer frequently

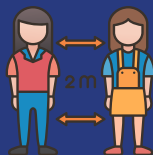

03 Monitor symptoms of students and faculty

04 Require masks when 3 feet social distancing is not possible without a barrier (grades 1st-6th only while inside)

05 Create strategic plans, procedures and expectations to ensure appropriate social distancing in all common areas (ex: hallways and restrooms)

06 Consistently enforce "return to school" criteria for all staff and students who have tested positive

07 Communicate via phone calls, Remind messages or email with parents when there has been exposure to a class or group of students

****Grades 1st-6th must bring a solid colored mask to school for use indoors when social distancing is not possible. Masks will be provided if needed.**
